

# DIY Dog Shampoos

## Smell Good Oatmeal Dog Shampoo

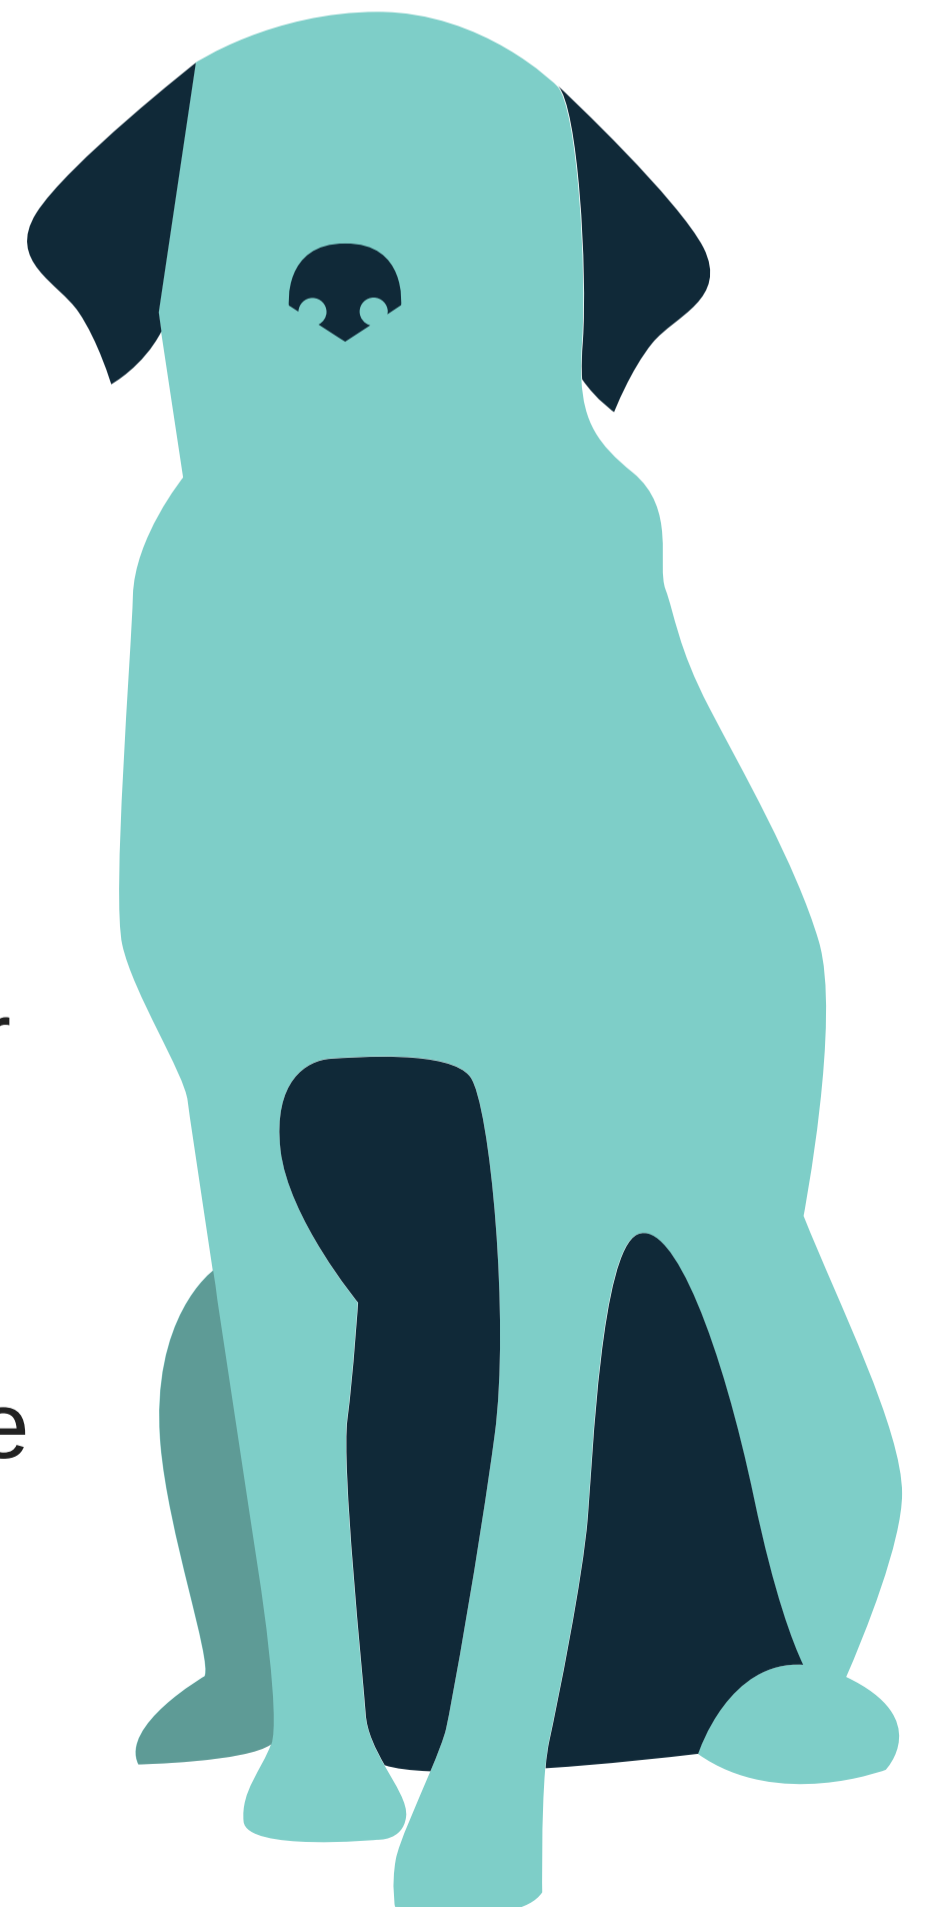

- 2 cups oatmeal
- 2 cups baking soda
- 8 cups warm water
- 2 teaspoons of dishwashing soap
- 8 or 9 drops of lavender oil

You will first want to mix the oatmeal in a general food processor until it has a flour-like appearance. Then combine the rest of the ingredients and put in a jar, plastic bottle, or container. Shake very well. When it is bath time, rub the shampoo in gently for a bit, and then rinse thoroughly to leave no shampoo residue on the dog's coat at all.

## Coconut Oat-y Doggy Conditioner

- ½ cup rolled oats
- ¼ cup coconut oil
- 2 tablespoons honey
- 1 cup warm water

Crush the oatmeal in a general and basic food processor. Mix all of the other ingredients together in a container or bottle. Once you shake it for a good bit, it should have a creamy texture. The reason this is labeled as conditioner is because the coconut oil soothes and helps heal dry and sore doggy skin, unlike the other shampoos.
